**BEST SALES PERFORMANCE EVER FOR RCI BANQUE**

In 2014, the penetration rate reached 35.2% of deliveries, up 0.6 points compared to 2013. RCI Banque improved its penetration on most of Alliance brands.

Thanks to a combined growth in the penetration rate and higher Alliance sales, RCI Banque recorded its best sales performance ever, up 7.3% compared to 2013 (1,245,000 new and used car financing contracts vs. 1,161,000 at end-December 2013). New financings reached €12.6 billion, up 10.6% from 2013.

Services business, a major component of the group's strategic plan, developed further in 2014. The penetration rate of services reached 73% of financed vehicles, an increase of 10.3 points in the period.

**FINANCIAL PERFORMANCE REMAINS STRONG DESPITE IMPACT FROM NON-RECURRING ITEMS**

Average loans outstanding increased by 4.9% compared to 2013, reaching €25.4 billion.

Net banking income came to €1.21 billion, down 0.9% in the period. This drop is mainly attributable to a negative contribution of exchange rates for €27 million and non-recurring items for €76 million, of which €52 million as a result of a High Court regulatory ruling in Germany. Excluding non-recurring items and despite a negative contribution of foreign exchange, net banking income increased by 3.6% at €1.27 billion.

Operating expenses remained under control at 1.58% of average performing loans outstanding, excluding non-recurring items. The operating ratio decreased by 0.8 points, falling to 31.8%. The cost of risk remained stable, at 0.43% of loans outstanding in 2014 vs. 0.42% in 2013.

Earnings before tax amounted to €674 million, down 9.4% in the period, a decrease of €70 million.

**RCI BANQUE CONTINUES TO DIVERSIFY ITS REFINANCING**

RCI Banque continued to diversify its sources of funding. The maturity of the group's debt was extended as a result of a 7-year bond issue for an amount of €500 million. RCI Banque also took advantage of the reopening of the variable-rate bond market, issuing €1.1 billion over 3 years through two bonds. Finally, good investor demand on the British market allowed RCI Banque to raise two £250 million loans, with maturities respectively of 3 and 5 years.

Outside of Europe, group entities in Argentina, Brazil, Morocco and South Korea also issued bonds on their local markets.

On the structured finance market, RCI Banque placed a €644 billion French retail loan asset-backed security and renewed a private securitization backed by car dealers' loans in Germany.

Following the launch of retail savings accounts in France in 2012 and Germany in 2013, RCI Banque extended this activity in Austria, diversifying further its funding sources. Deposits collected at end-2014 came to €6.5 billion, accounting for 25.7% of the group's total outstanding.

**In line with its strategic plan, RCI Banque is expanding internationally to support the growth of the brands of the Renault-Nissan Alliance. Growth in the sales of services is a priority for all the entities of the group. This activity contributes to customers' satisfaction, enhances their loyalty to the Alliance's brands and increases RCI Banque's profits, while diversifying its revenue sources.**
